22282VIC - Course in the management of Asthma Risks and Emergencies in the workplace

Metro Training Pty Ltd works in partnership and under the auspices for Allens Training Pty Ltd RTO 90909 to provide this course. The unit of competency has been developed to provide students with the skills to recognise an asthma attack, provide first aid assistance to the victim, hold blue reliever medication in first aid kit for asthma emergencies in line with the State and Territory Regulatory Bodies.

This course can be provided on-site or an off-site course can be arranged at a convenient location for staff. This course can also be presented where no accreditation (certificate) is received but rather is provided as an information session for staff.

Course Duration

4 hours face to face training
